

# Therapist Spotlight

*"Fern's has been wonderful to work with. She is an amazing advocate for our family with doctors and our school district as we work through some evolving and occasionally mysterious issues... she really has been a friend and a therapist to my son and our family."*

*- Maureen Cushman*

*"Fern has been working with my son Jakob for over a year and we can't believe how much progress he has made. Fern is like family to us, she is kind, sweet, smart, patient, extremely helpful, and continuously hard working! We love Fern and my son always has a glimmer in his eye and a big smile on his face whenever he hears her name. Thank you Fern! "*

*- Elena Eddy*
