

# Therapist Spotlight

*“Torrey has done a fantastic job working with my son. She has built his skills up in many areas, as well as built up his confidence. His handwriting has improved and he is making better grades. She has a knack for knowing what my son needs to focus on and she has done a great job getting him to open up to her. We have been very pleased with working with Torrey!”*

*“Sonny started with Torrey a little over a year ago. In his first session, he was barely able to carry a bottle of water across the room and was completely unable to drag the beanbags without assistance. Now he can do both with ease and he is able to support his own weight hanging from a trapeze swing. He has made so much progress in so many areas that he is almost like a new child. He is so proud of his new skills that he likes to hang from a bar whenever he sees the chance. She also worked diligently on teaching him to jump forward and again, he is so proud of his accomplishment he likes to do it whenever space allows. Sonny adores Torrey so much that he talks about her during the week and can't wait for his weekly sessions. I appreciate how in-tune Torrey is to my son's needs and also to my own. She takes the time to explain the activities and discuss his progress both in therapy and outside of therapy. We will surely miss her when she leaves at the end of the month. I cannot say enough good things about her!”*
